PROFESSIONAL SUMMARY

Reliable and detail-oriented video editor with hands-on experience in podcast and talking-head content editing, primarily in Adobe Premiere Pro with motion graphics and titling support in Adobe After Effects. Comfortable following set templates and brand guidelines without improvising — priority is always clarity, consistency, and fast turnaround. Experienced in clean cutting, audio cleanup, jump cuts, and exporting platform-ready long-form and short-form clips. Proven track record of managing multiple concurrent projects and meeting deadlines in a fast-paced freelance environment. Comfortable working from shared Google Drive folders with minimal back-and-forth.

WORK EXPERIENCE

Freelance Video Editor | *Self-Employed (Remote)* | Ongoing
End-to-end video editing for multiple clients across social media, promotional, and digital distribution channels — consistent delivery within agreed deadlines across concurrent projects.

- Edited talking-head and interview-format videos in Adobe Premiere Pro: applied jump cuts, removed long pauses, filler words, and technical glitches to produce clean, ready-to-publish content.
- Built and animated titles, lower thirds, and motion graphic elements in Adobe After Effects, then integrated them into Premiere Pro timelines for a polished, on-brand finish.
- Applied pre-set intros/outros and maintained consistent visual templates across episode batches using Premiere Pro and After Effects, ensuring uniform look and feel without creative deviation.
- Exported long-form episodes and short-form clips (30–90 seconds) optimised for YouTube, Instagram, and other social platforms.
- Ensured clean, balanced audio levels and stable framing/resolution across all deliverables before export.
- Managed concurrent client projects simultaneously, consistently meeting deadlines in a fast-paced remote freelance environment with minimal revision rounds.
- Collaborated with clients to interpret briefs, incorporated feedback efficiently, and delivered files directly to shared Google Drive folders for review.
- Applied color grading and basic visual corrections in Premiere Pro to maintain stable, professional-looking footage across multi-camera or variable-lighting recordings.

Head of Media and Video Editing | *Kolehiyo ng Lungsod ng Dasmariñas (KLD)* | Academic / Institutional Role
Led all video production for institutional events, academic communications, and school media — managed full production lifecycle from capture to final export.

- Managed full production lifecycle of institutional video projects: planning, shooting coordination, editing in Adobe Premiere Pro, and final delivery to set deadlines.
- Maintained systematic digital asset organisation (footage, project files, exports) for clean handover and future reference.
- Produced consistent, template-driven multimedia content aligned with institutional communication standards — not driven by creative flair, but by clarity and reliability.
- Coordinated with faculty and event organisers to capture briefs, deliver on expectations, and reduce revision cycles.

TECHNICAL SKILLS

Video Editing: Adobe Premiere Pro · Adobe After Effects · CapCut · DaVinci Resolve (familiar)

Design & Photo: Adobe Photoshop · Illustrator · Lightroom · Canva · Figma

Audio: Audio level balancing · noise reduction · voice clarity cleanup

File Management: Google Drive · organised project folder workflows · version control

AI Tools: AI-assisted content creation · OpenAI platforms

Productivity: Microsoft Word · Excel · PowerPoint
